

Greetings,

I am writing to ask for your support toward the Michigan Mathematical Association of Two-Year Colleges' (MichMATYC) annual conference on October 11-12, 2019 at Henry Ford College, Dearborn, MI. As you may know, two-year college mathematics education is vital to providing strong academic foundation toward educational success. More importantly, it is a key element for a strong national economy and opportunities for a better life. Over the years, two-year college mathematics educators have been meeting across the State of Michigan to collaborate on ideas, plans, and resources not only for improvement of students' experiences and faculty professional growth, but fundamentally to move colleges and universities across the state toward providing quality education. Subsequently, this year we continue to work diligently to create a stellar platform for the interchange of ideas, bringing in participants locally, state-wide, and nationally, for the collective intent to better students' education. Our focus this year is on the theme Mistakes Allow Thinking to Happen.

I would like to invite you to partner with us. On the attached form there are several opportunities that may be of interest to you. Your support will indeed help move us closer to attaining our goals. In recognition, we will include your name on our conference website and signage at the conference. Also note that there will be dedicated time during the conference for visiting the vendor tables. Please feel free to contact Sam Bazzi ([sbazzi@hfcc.edu](mailto:sbazzi@hfcc.edu)) or Mary Rayhall ([mrayhall@hfcc.edu](mailto:mrayhall@hfcc.edu)) if you have any questions.

Thank you.

Sincerely,

MichMATYC2019 Planning Committee, Henry Ford College

5101 Evergreen Road  
Dearborn, MI 48128-1495
